My staff and I would like to welcome you to our practice. We thank you for selecting us to provide you with the highest level of periodontal and implant care available.

We understand that seeing a periodontist may be a new experience for you so we would like to make it as easy and comfortable as possible. Let's briefly go over what you can expect during your first appointment.

Your first visit will consist of a thorough intraoral examination, a full mouth series of radiographs, and a periodontal charting when necessary. If you have had a full set of x-rays taken within 3 years, our reception staff will arrange to have them sent from your general dentist.

Following the exam, we will study the information gathered and develop a treatment plan to best suit your needs. We encourage you to ask questions about your proposed treatment so you understand it and feel comfortable. Estimates of cost will be given and a more detailed treatment plan will be sent to you and your general dentist.

The fee for your initial visit is due at the time of your appointment. If you have dental insurance, as a courtesy, we will submit the claim to your dental insurance company. If we receive payment we will promptly reimburse you. We ask that you bring your card with you so that we may keep a copy of it on file.

If you are physically handicapped please let us know so we can assist you into the building. We look forward to meeting you!

Warm Regards,

Michael J. Williams, DMD and Staff
